

# **10th International Nitrogen Conference (N2026)**

## **Sponsorship Prospectus (International Edition)**

### **1. About the Conference**

The 10th International Nitrogen Conference (N2026) will be held in Kyoto, Japan from November 2–6, 2026.

N2026 is a global conference bringing together researchers, policymakers, practitioners, private-sector representatives, producers, NGOs, educators, youth, and other stakeholders to address one of the world’s most pressing sustainability challenges: nitrogen management.

Theme: Sustainable Nitrogen Management for Future Generations

Website: <https://n2026.org/>

Expected participation: 1,000 participants from more than 25 countries

### **2. Why Nitrogen Matters**

Nitrogen is essential for food production and industrial activities. However, inefficient nitrogen use contributes to a wide range of environmental and health challenges.

Addressing nitrogen challenges is closely connected to:

- Climate change mitigation
- Circular economy and resource efficiency
- Biodiversity conservation
- Sustainable food systems
- Water and air quality improvement
- Human health and ecosystem resilience

### **3. Why Partner with N2026**

Supporting N2026 offers a unique opportunity to:

- Engage with leading international experts and policymakers
- Showcase technologies, products, and sustainability initiatives

- Strengthen ESG and CSR visibility
- Connect with students and early-career professionals
- Contribute to international dialogue on sustainability and nutrient management
- Build networks across academia, government, industry, and civil society

#### **4. Sponsorship Opportunities**

##### **Sponsorship Categories**

- Platinum Sponsor – JPY 1,000,000+
- Gold Sponsor – JPY 750,000
- Silver Sponsor – JPY 500,000
- Bronze Sponsor – JPY 350,000

##### **Typical Benefits**

- Logo visibility on the conference website and materials
- Exhibition booth space
- Complimentary registrations
- Networking opportunities
- Advertisement placement

Detailed benefits and conditions for each sponsorship category are available upon request. Please contact the N2026 Secretariat for further information.

#### **5. Exhibition Opportunities**

Exhibition-only participation is also available independently of the sponsorship categories.

##### **Booth Specification**

- Approximate size: 2 m × 2 m
- Fee: JPY 200,000

This is an excellent opportunity to introduce your company's technologies, products, and initiatives to an international audience.

## **6. Supporting the Next Generation**

A key focus of N2026 is supporting youth participation and fostering the next generation of sustainability leaders.

Sponsorship contributions will help:

- Enable participation by undergraduate and graduate students
- Support early-career researchers
- Promote international exchange among young participants
- Develop future leaders in sustainable nitrogen management

## **7. Additional Visibility Options**

Additional promotional opportunities are available to enhance your visibility during N2026.

### **Advertisement in the Program Booklet**

- Distributed to all conference participants in electronic format
- Fee: JPY 55,000 – 88,000 depending on size and placement

### **Website Banner Placement**

- Banner placement on either the official conference website or the participant portal
- Fee: JPY 55,000 per placement
